# We are

# Iceland Seafood

A respected industry leading supplier of North Atlantic seafood. A leading service provider in our markets.

A key processor of high quality seafood in the Spanish and United Kingdom markets. One of the largest exporters of fish products from Iceland.

Proud of our team of more than 620 people, their know-how and their expertise.

# 1932

The Ocean is our way of life. We belong to a culture that looks to the sea with respect, responsibility and gratitude. From the fisherman from Ísafjörður to the manager in Hamburg or the worker in the factory in Barcelona. Across all the organization.

**It's about our past, about the present and a commitment to the future.**

**Sales and Distribution Division**

**Iceland Seafood Iceland**, located in Reykjavík, is one of the largest companies in the export of seafood from Iceland to all main markets around the world. The company operates in close co-operation with Icelandic seafood producers and provides sourcing expertise, quality control and logistic solutions for other Iceland Seafood companies.

**Iceland Seafood France**, based in Boulogne-sur-mer, provides high-quality seafood from Iceland and from a variety of global sources. The company supplies fresh and frozen products to food service, retail and processors in France.

**Iceland Seafood Germany**, located in Hamburg, is a supplier of high-quality fresh seafood. Fresh fish is mainly flown in from Iceland for delicatessen stores, food service and retail.

**Iceland Seafood U.S.A.**, our USA division, markets a full range of cod, haddock and pollock/saithe products for the distributor, food service and restaurant industry in the USA. Products are imported directly from Iceland, Russia and Asia.

**Value Added Divisions**

Iceland Seafood continues to invest in value added activities in line with global trends. We are focused on supplying great quality seafood and creating solutions for our customers.

**Northern Europe Division**

**Havelok Limited**, located in Grimsby (UK), supplies high-quality seafood from procurement to packed product, which is second to none, offering one of the finest ranges of breaded, battered and plain fish in the UK. It is focused primarily on the catering and foodservice market.

**Iceland Seafood Barraclough**, located in Bradford (UK), specialises in supplying our retail customers with private label high-quality fish and shellfish globally sourced. It specialises in smoking, cutting to customer specs and packing for many of the largest retailers in the UK.

**Oceanpath Limited**, operating out of two factories in North Dublin, is one of the largest seafood processors in Ireland, supplying to major Irish retailers and food service customers. Within the Group, Dunn's of Dublin is an iconic premium retail brand best known for its smoked seafood products.

**Southern Europe Division**

**Iceland Seafood Ibérica**, located close to Barcelona and with support in Vigo, Madrid, Andalusia, Genova and Argentina, has processing, cold store and distribution facilities. It is a strong player in salted and frozen seafood operating in the Spanish market, with sales across the Mediterranean region and offers its variety of quality seafood products adapted for local tastes.

Strong combination of  
sourcing expertise and well positioned value  
added activities

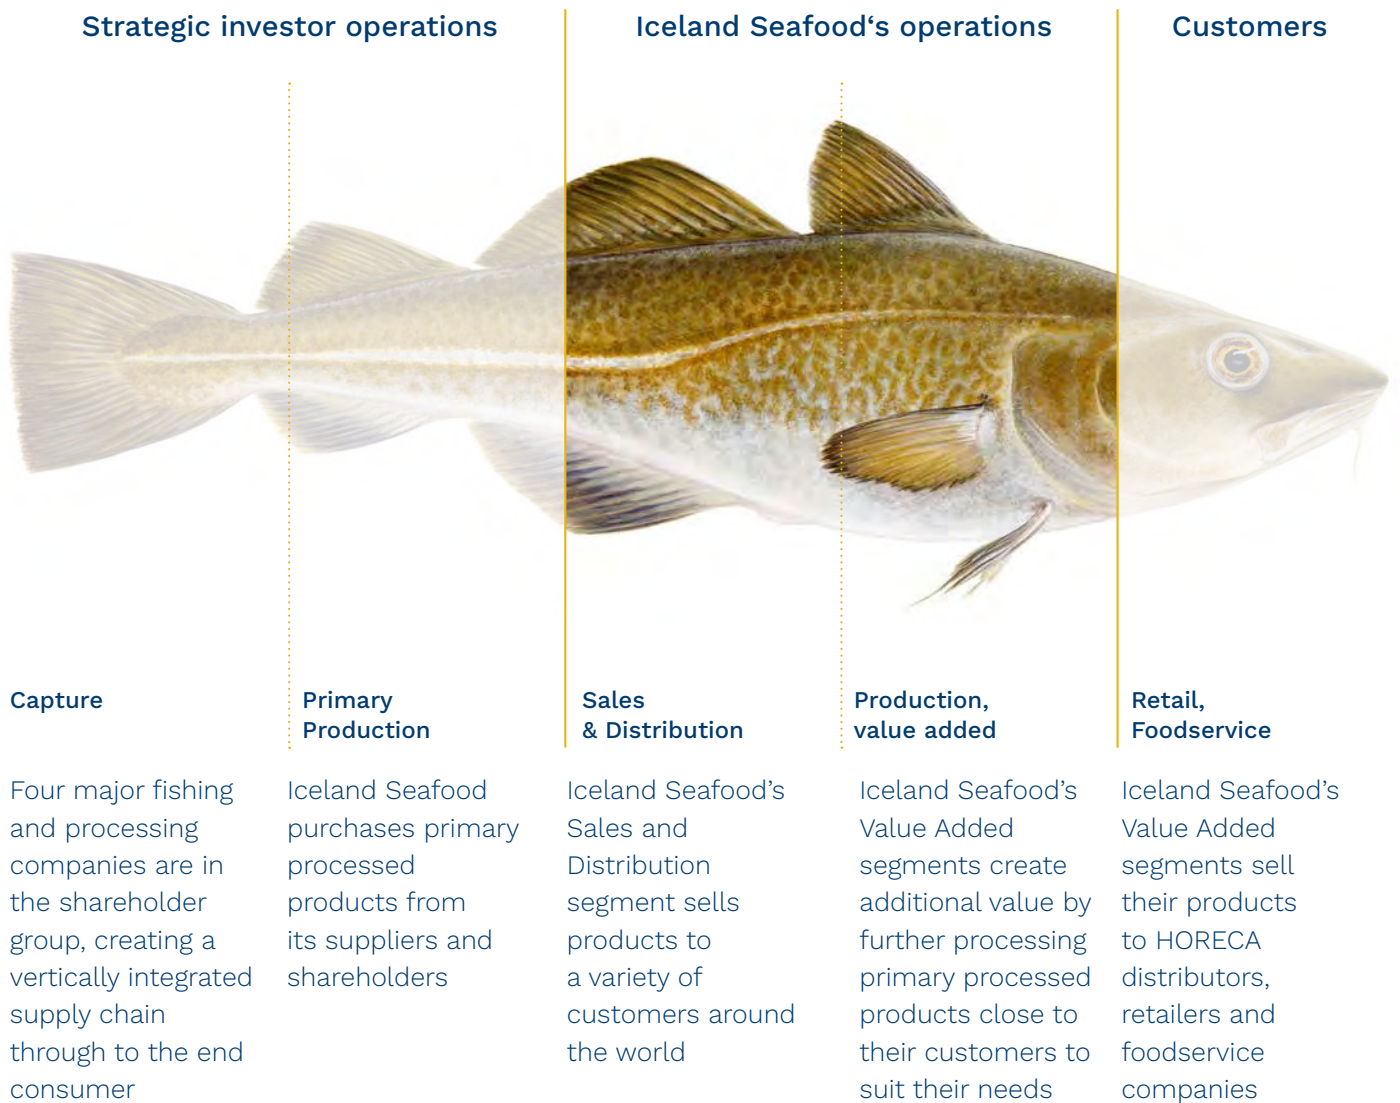

**7 value added  
factories  
11 businesses  
8 country  
locations**

# A complete value chain

**Iceland seafood is in a unique position to benefit from close cooperation with strategic partners and proximity to the markets and efficient value added operations**

## Presence through strategic alliances and cooperation

Sales & Distribution is the backbone of the Group and supports value added activities, which drive profitability

# Vertically integrated

# Environmental & Corporate Social Responsibility Policies

## Environmental Policy

The key environmental consideration for the Iceland Seafood International Group are:

- **Sustainable fisheries**
- **Energy use**
- **Greenhouse gas emissions**
- **Water use**
- **Waste**

## Principles

- 1 Our objective is to source only from fisheries that are administrated in conformance with **FAO Code of Conducts** for responsible fisheries and have proper fishery management systems,
- 2 ISI supports independent and credible standards that are set to audit and approve **fisheries that are well managed** and will wherever possible promote these fisheries to its customers,
- 3 ISI is committed to working with industry on fishery **improvements and best practises**,
- 4 We help and support customers to make **the right choice** to source sustainable seafood,
- 5 ISI is committed to **supply sustainable seafood** to it's customers.
- 6 **Educate** customers, suppliers, employees and other key stakeholders about environmentally responsible seafood.
- 7 **Participate** in work with official and industry bodies to achieve our policy.

## Corporate Social Responsibility Policy

This Policy defines the Group's expectations of our employees as well as what expectations our employees shall have of each other and on us as their employer. It is based on the belief that **business should be conducted honestly, fairly and legally**. The principles apply in the context of the value chain across the Groups operations.

## Principles

- 1 We are committed to maintaining the **highest standards** of business conduct by using only legal and ethical means in all business activity.
- 2 **We are fair, equitable and respectful** to employees, associates, competitors, customers, the public and all business or professional relationships.
- 3 We treat all customers and suppliers **honestly, fairly and objectively**.
- 4 We observe all applicable state, federal, foreign or international **laws and regulations** relating to the production, sourcing, processing, labelling, handling, importing, distribution, promoting and selling of seafood products.
- 5 We are committed to maintaining the Group's financial books and business records with the **highest degree of accuracy, completeness and integrity**.

A global sourcing policy  
based on responsible ocean  
stewardship

---

**FAO Code of Conduct**

The purpose of 1995 FAO Code of Conduct is to set international standards of behaviour for responsible practices with a view to ensuring the effective conservation, management and development of living aquatic resources, with due respect for the ecosystem and biodiversity.

+ [www.fao.org](http://www.fao.org)

**Iceland Responsible Fisheries**

The FAO-Based Iceland Responsible Fisheries Management Certification Programme is a third party certification model used to verify responsible fisheries management in Icelandic waters and good treatment of marine resources.

+ [www.responsiblefisheries.is](http://www.responsiblefisheries.is)

**MSC**

Each MSC certified fishery has been independently assessed on its specific impacts to wild fish populations and the ecosystems they're part of. All along the supply chain, from ocean to plate, MSC certified seafood is clearly labelled so it can be traced to a certified sustainable fishery.
